

Jumbo-pallet

The floor can be delivered on pallets in pre-assembled sections, 4 x 3 tiles = 12 tiles = approx. 1,2 x 0,9 m. This delivery solution makes the installation easier and saves time.

Maxi-pack carton
55 tiles = 5 m² / carton

Installation

BERGO SPORT FLOORS

type MULTI-SPORT & type TENNIS

Suitable for various application areas e.g. sport halls, hockey grounds, schoolyards, specific events in- and outdoors.

type MULTI-SPORT

type TENNIS

Flooring is an entire science. When evaluating a flooring for your premises or for a specific event, one has to consider factors such as: suitable surface for the specific sport, maintenance, cleaning, installation, removal, durability and appearance.

BERGO SPORT FLOORS offer a high performance level considering all these factors and fitting the floor yourself could not be easier, another big advantage.

BERGO SPORT FLOORS

Two designs

BERGO is an interlocking flooring system available in two designs, several colours and ideal for most sports and other activities.

One may choose from the following two designs MULTI-SPORT or TENNIS.

Advantages

- For indoor and outdoor use
- Easy to install/move
- Requires minimal maintenance
- Easy on your back and joints
- Correct bounce over the complete court
- Durable
- Excellent drainage capability
- Ventilates the floor underneath
- All-weather court – dries quickly after rain
- Sound absorbing characteristics
- Ideal on worn asphalt or cracked concrete

Construction

The unique construction will give correct resilience, bounce and friction. The perforated pattern and underneath design allows for excellent drainage capability, which will make the court dry quickly after rain. No puddles. The floor can stay outside in both summer and winter in any climate condition.

BERGO is according to evaluations made by Chalmers Technical University of Sweden, lenient with the players back and joints.

Easy to install

BERGO can be installed on concrete, asphalt or any other hard and flat surface.

Tapping a rubber mallet or similar over the protruding rings easily interlocks the tiles together. No special tools, glue or screws are needed. Use a jig- or circular-saw to cut the tiles for a perfect fit.

Disassembly-tools

The ingenious design allows for the floor to be moved quickly. The floor can easily be taken apart by using a disassembly-tool. In case one tile is damaged on the court one can change the individual tile by using a replacement-tool.

Lines

Lines can either be created by using expansion strips or by normal painting procedure.

Minimal maintenance

BERGO requires virtually no maintenance. Normal floor care such as occasional wet cleaning, vacuuming and/or power hosing is usually all that is needed. The flooring system is without doubt a cost saving alternative to high maintenance floors/coatings.

Accessories

The interlocking flooring system offers several practical accessories such as: Disassembly-tools, Edge strips, Expansion strips and Corner strips in matching colours.

Disassembly-Tool

Expansion strips and Expansion Cross-piece

Edge strips and Corner

BERGO SPORT FLOOR type MULTI-SPORT

Type A = smooth surface

MULTI-SPORT can be installed for most usage areas.

The level of friction provides stop and go characteristics which are perfect for: Inline hockey, Floorball, Basketball, Soccer, Badminton, Handball, Volleyball, Netball, Aerobics etc.

BERGO is also an ideal solution for on/off arrangements, such as special events, shows and exhibitions where one need to install and take away the flooring quickly.

BERGO is according to players in The Swiss Inline Hockey League (SIHL) well approved in the following important criterion:

- Skate conduct
- Level of noise
- Grip/Braking manoeuvre
- Puck conduct

Technical information

Material: Environmentally friendly recyclable UV-stabilized polypropylene with mineral additive.
 Size: 303,3 x 303,3 mm. 5 m² / carton = 55 tiles
 Pre-assembled sections, 4 x 3 tiles = 12 tiles
 Thickness: 14,3 mm

Standard colours: Green, dark-blue, light-blue and silver-grey.
 Accessories: • Edge strips, 300 x 55 mm.
 • Corner strips, 55 x 55 mm.
 • Expansion strips, 150 x 75 mm
 • Expansion Cross Piece, 75 x 75 mm
 • Disassembly-Tool
 • Replacement-Tool

BERGO SPORT FLOOR type TENNIS

Type B = surface with knobs.

BERGO TENNIS is a well established surface, approved and classified by The Swedish Tennis Association.

The excellent drainage capacity/special design will give a high usage ratio and the surface will bring good economy to the investor.

The minimal maintenance required has been appreciated by: communities, embassies, hotels, large companies and leisure establishments all over the world.

The floor has been classified "medium pace" and the unique construction gives correct resilience, bounce and friction.

Bergo Tennis gives correct bounce over the complete court 11° angle of incidence gives a 13° angle of bounce. Class: Medium pace.
